Student Tipi-mate Preference Form

On Canoe Island, students will stay in canvas tipis on wooden platforms with electricity, cots and mattresses, and a wooden storage box for each camper. Each tipi accommodates 5-6 people.

Please write your child’s name and the names of three classmates with whom s/he would be willing to share a tipi. We will do our best to make sure that students share a tipi with at least one person from their preference list.

Student name: ________________________________________________________________

Tipi mates:

1. ________________________________________________________________
2. ________________________________________________________________
3. ________________________________________________________________

Please note that students who are in the same Tipi group will not be in the same activity group in order to facilitate interaction with others.
